

2020 Design Simplify your Process

3D REALISM, SPEED AND ACCURACY

- Design, plan and visualize kitchens & bathrooms with thousands of flexible products from manufacturers' catalogs.
- Stunning 3D renderings created specifically for kitchen & bath professionals.
- Measure and create initial floor plans with your iPhone or iPad using Sensopia Magicplan Integration app.
- Save a panoramic image for any design and provide your clients with an immersive 3D experience that makes them feel like they are right inside the new design for their kitchen or bathroom.
- Select cabinets, appliances, accessories and more, from thousands industry manufacturers' electronic catalogs.
- Quickly add realistic task and accent lights (includes LED) to your designs with Lighting Wizard.
- Ensure design compliance with product specifications using built-in NKBA verification capabilities.
- Ensure accurate quotes with downloaded product and price updates.
- Use time-saving drawing and positioning tools for a quick layout.
- Create multiple rooms in one design plan while using one Features and Options catalog. This makes designing easier and allows for more flexibility in the design process.
- Increase productivity for designers in their day-to-day work with time-saving features.
- Advanced capabilities for closets and home organization with add-on modules.
- Automatically produce bills of materials and estimates from your design and place your orders electronically to multiple manufacturers' using 2020 Live Order.
- Integration with accounting and POS systems (available option).
- Comprehensive training and support .
