

DATA+QUOTE MANAGER

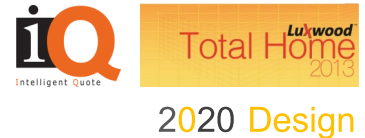

Combine Estimates Manage Quote Link to POS

SAVE TIME & INCREASE PROFITS

- Import bill-of-materials from multiple design/estimating programs - eliminate duplicate typing, improve staff efficiency
- Combine multiple design/estimating programs into a single quote sorted the way you want - i.e. 2020, window mfg's, etc.
- Format design/estimating BOM's to suite POS systems
- Data base is linked to POS inventory; estimating is done instantly with actual pricing
- Add non-stock items on the fly
- Include drawings & images as part of quote
- Set up price levels; switch between levels individually or globally
- Adjust margins/markups, gross profit, and selling price on items, either individually or globally
- Create custom reports, save formats for future use, and display data as desired i.e. vendor, phase
- Export part or all of quote(s) to POS for shipping or package sales phased deliveries
- Save quotes/data as PDF, rtf or HTML for easy emailing or storage
- Stand-alone or network; a site license provides unlimited users
- Integration with available sophisticated Installed Sales Software
